Looking for qualified engineers and scientists in the following disciplines:

- Chemical engineering
- Mechanical engineering
- Structural engineering
- Environmental engineering
- Electrical/I&C engineering
- Chemistry

Headquartered in Austin, TX, the AECOM Process Technologies group focuses on the development and installation of clean air technologies, gas treatment systems, and water treatment systems for the power, oil and gas, and other industries. These technologies are designed to significantly reduce the emission of pollutants that contribute to acid rain, smog, global warming, and mercury contamination.

We are Leaders. AECOM is a fully integrated engineering, construction, and technical services organization with the capabilities to support every stage of the project life cycle. AECOM is currently ranked as the #1 Top 150 Global Design Firms, #1 Top 500 Design Firms, #1 Pure Design, #1 Transportation, #1 General Building (Engineering News-Record, 2014). Through our network of offices in nearly 150 countries in the Americas, Europe, the Middle East and Asia/Pacific, our work is focused in five key market sectors: Oil & Gas, Power, Federal, and Infrastructure. Within each of these markets, our comprehensive skills and expertise are valued resources to clients around the world.

We are Local. There are more than 700 employees located on the Austin, TX AECOM campus—just north of downtown Austin. The technical disciplines supported in the Austin office reflect those offered by the company as a whole and include Process Technologies, Engineering Design, Environmental Services, Construction Management, Planning, Operations and Maintenance, Program Management, Information Technology, Architectural Design, Sustainability, and Systems Engineering. AECOM Austin also operates a 10,000 sq ft state-of-the-art laboratory facility.
We Offer Career Opportunities. AECOM provides a challenging environment with exceptional career opportunities. The broad range of markets we serve and the wide spectrum of services we provide offer career opportunities that are virtually unmatched in the industry. As part of AECOM, you will have the opportunity to collaborate with a diverse workforce of talented professionals—many of whom are at the top of their fields—on projects that impact our world for the better. We are a company where people thrive and contribute, and we are committed to fostering an intellectually stimulating environment that leads to exceptional professional development and career advancement.

We Give Back To The Community. AECOM sponsors numerous organizations each year through the employee-organized Community Action Committee. In Austin, AECOM employees participate in various local, non-profit organizations including Meals on Wheels, Austin Parks Foundation, United Way, school mentoring programs, and the American Cancer Society, volunteering their time and organizing fundraising events.

We Play Hard. With the advantage of working at a large corporate campus, AECOM Austin employees enjoy our annual company parties, and compete in fall and spring volleyball leagues and lunch-time pick-up basketball games on the regulation-sized volleyball and basketball courts located on-site.

AECOM Worldwide Projects

- Applied innovative AECOM-patented technology to upgrade the FGD system at Merom Station, IN
- AECOM supports the complex infrastructure to maintain readiness at the Kennedy Space Center, FL
- Provided engineer procurement and construction services to the Detroit Edison Monroe Power Plant, MI
- AECOM helped create the world’s first commercial spaceport, NM
